

Road show 2009

Tour through Europe

The Spheros Tourbus was on the road again this year, demonstrating the climate control capabilities of the new Citysphere system to manufacturers and key customers on site.

With the slogan "cool through the city" the Spheros Show bus covered a distance of about 9000 km and convinced transport companies and OEMs all over Europe of its unique cooling concept. The modular air conditioning system Citysphere, which was conceived in particular for the city bus market in temperate climate zones, is based on an innovative air distribution system that quickly and efficiently establishes a pleasant temperature inside the bus.

Overall Spheros visited 25 cities in Germany, Austria, Switzerland, Italy, France, England and Scotland with its demo bus, together with their national distribution partners of Webasto and Quality Parts.

The event was attended by reputable public transport companies such as RATP in Paris, as well as interested small to medium size transport companies, manufacturers like Irisbus/Iveco, distributors, local wholesalers and workshops.

Management of procurement and workshop discussed the benefits of the air conditioning system and took the chance to experience the unit life. "And that is exactly what counts!" emphasized Franz Bergmaier (Director Regional Manager Sales & Service). "The Citysphere unit is an air conditioning system which mainly convinces with the effect of a fast emerging sense of well-being in the bus interior." This was clearly noticeable! Almost every company expressed that the comfort of this new cooling concept, in connection with the saving potential in terms of Life Cycle Cost (LCC), incorporates a real additional value to them. Especially businesses, which have decided against air conditioning in the past due to costs of purchasing, maintenance and service, benefit from this.

Tour dates:

6. May	Göppingen (GER)
7. May	Eisenach (GER)
12. May	Herten (GER)
13. May	Bonn (GER)
14. May	Frankfurt (GER)
15. May	Freiburg (GER)
19. - 20. May	Lausanne (CH)
